

LIVING THROUGH LEARNING

March was a very productive month at LTL as it was all system goes! Our educators, facilitators and learners were on task and working their magic in the schools.

Resource distribution

In addition to the resources and accessories that we provide for our Reading Adventure Rooms, we've equipped the classrooms with more puzzles, soft toys, mini white boards with markers, pencil grips, alphabet objects, posters, story books and flash cards.

Educators from Bruckner de Villiers Primary School together with LTL staff on hand-over day.

As part of the resource distribution drive, Levana Primary and Lotus River Primary received **new mobile reading units** stocked with reading books as well as a carpet, a reading boat and soft toys.

In This Issue

- 1 Resource distribution
- 2 School Visits and Training
- 3 Educators and Principals: Focused WhatsApp Groups

Schools visits and in-class training

We've adapted our training strategy this year by focusing solely on in-class training as opposed to off-site workshops. This gave us the opportunity to intervene hands-on and observe our facilitators and educators to provide them with personalised feedback and support.

Training for our internal facilitators are done every Friday to ensure that they are well equipped and knowledgeable to assist the educators in the classrooms.

Educators and Principals: Focused WhatsApp Groups

We've started focused WhatsApp Groups with our Principals and Educators to get them involved in our *implementation actions* that we plan for the learners each week. During March we focused on the correct seating position, slanting of books, pencil grips, doing spot checks and looking for outpoints.

Things to look forward to in April

- World Book Day - 23 April
- Holiday Programme
- Literacy competition

Some images were taken before COVID.
